

FOR THE YOUNG AT HEART

Collection Construction Tips:

● Solder edge bead should be as round and full as possible to give strength to piece. I recommend using a black patina.

● For items with more than one hook, tie a knot in fishwire on the item's lowest hook so your piece will not slide on the wire. Adjust your piece so it hangs on an angle you like, and tie the two ends together with two knots 1" - 1.5" apart at top of fishwire to hold the angle of hang. Hook goes between the two knots.

● Create U shape with tinned wire, and imbed in back solder bead where indicated on diagram. I use # 20 gage tinned wire.

● Where foil shapes are shown, cut shape from foil and stick to glass where indicated. Fill with solder and attach to adjacent solder line.

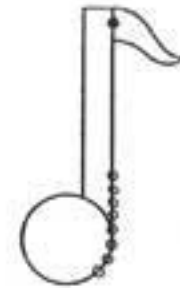

INDEX:

Music Note: 4.5" x 2.5" 3 pieces

GLASS: Any bright colourful glass looks nice! Spectrum Baroques create an interesting effect.

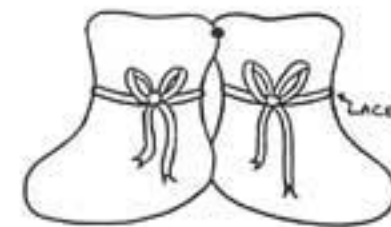

TIPS: Very easy to make.

Booties: 3" x 5.5" 2 pieces

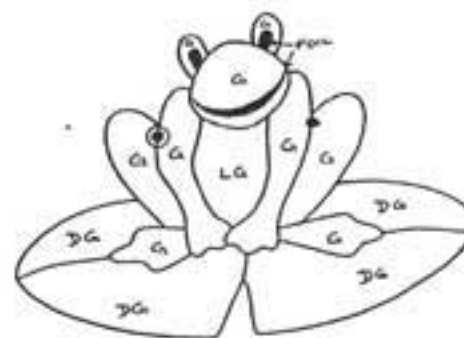

GLASS: Soft Pinks, blues, purples, yellows, greens, or iridescent white look excellent.

TIPS: Tie some real lace ribbon around the booties where indicated for a nice effect.

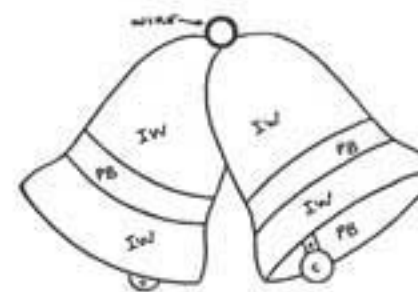

Froggy: 5" x 7" 14 pieces

GLASS: LG - Light Green
G - Green
DG - Dark Green
Bullseye green mottles work great for this froggy!
TIPS: Cut foil shapes for eyes and mouth.

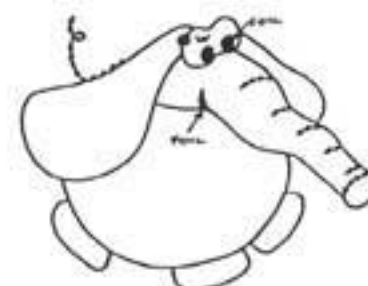

Bells: 4" x 6.5" 11 pieces

GLASS: IW - Iridescent White
PB - Pale Blue
C - Cobalt Blue
TIPS: Form circle with wire or brass rod where shown on diagram, and hang bell with a piece of real ribbon instead of fishwire.

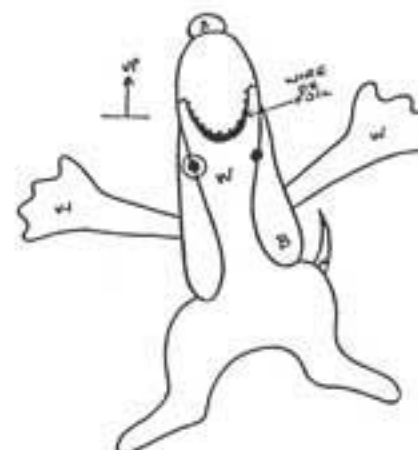

Fat Elephant: 4.5" x 5.5" 9 pieces

GLASS: Eyes should be white. Any soft colour looks good for body.
Be playful!
TIPS: Attach wire tail and trunk lines to body holding with needlenose pliers. Cut eye shapes from foil.

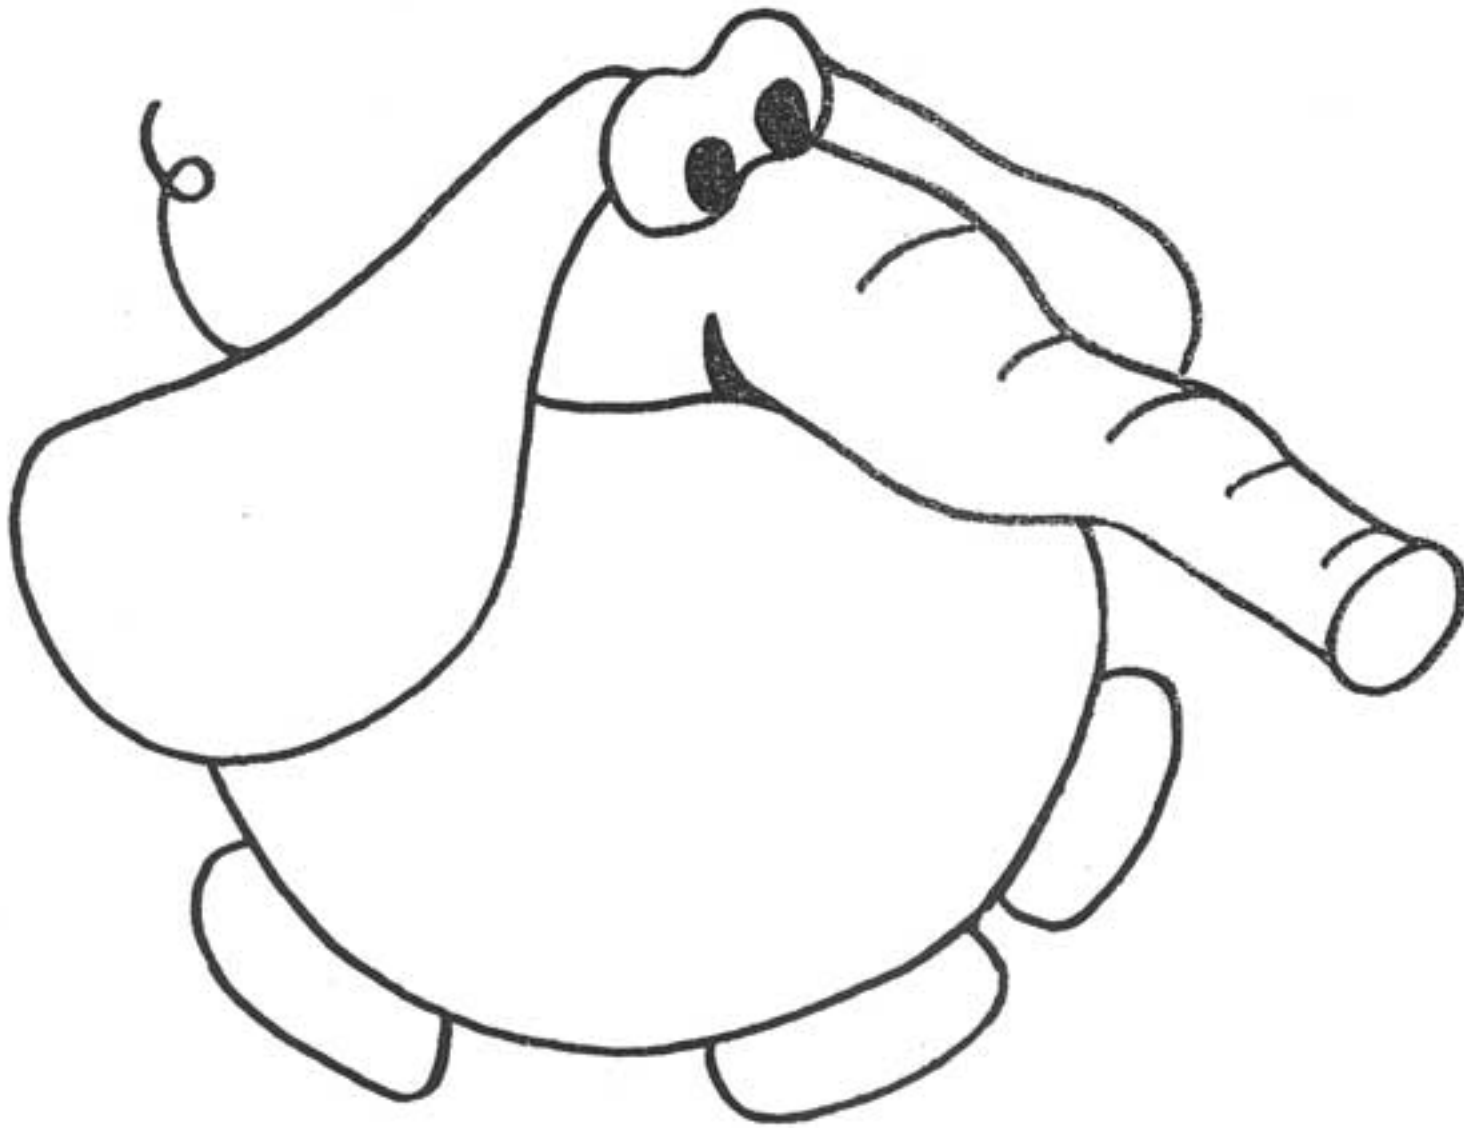

Happy Puppy: 6.5" x 6.5" 7 pieces

GLASS: W - White or tan
B - Black or brown
TIPS: Stick mouth foil shape to glass. You can use a bent wire shape for the mouth if you prefer.
